

## ENVIRONMENTAL IMPACT ASSESSMENT

### CURRENT STATUS

The environmental information on these boards was used in support of the original planning application for the spaceport site and is currently being reviewed as part of the preparation of the Environmental Impact Assessment Report (EIAR) for the new planning application. The new EIAR will also include equivalent information for the area around Ben Tongue where it is proposed that the range control infrastructure will now be located.

The new EIAR will be fully scoped with statutory consultees (The Highland Council, NatureScot, Scottish Environment Protection Agency and Historic Environment Scotland) and will be submitted with the new planning application in due course.
