## RECRUITMENT NOTICE

### Role: Programme Manager Safety, Regulatory and Licensing

**Location: Invernesshire / Forres, UK**

**Travel: Occasional within Europe**

**Salary: Negotiable and competitive**

**Start date: ASAP 2019**

We are an international space launch company seeking to recruit an experienced individual from the space industry for a critical role based in Forres / Inverness at our new manufacturing and engineering centre.

We are seeking a motivated, experienced Programme Manager to plan, control and deliver our program of work related to acquiring the licenses required by Orbex, as a Launch Services Provider, to launch our vehicle from any of our preferred launch sites within Europe.

You will probably be a highly experienced Programme Manager, working in or adjacent to the space industry sector. You will be used to structuring plans to deliver a program which may have many unknowns and ambiguities at early stages, to manage through to the successful delivery of the business objectives. Your experience in similar environments will allow you to make insightful judgements about likely outcomes and potential solutions.

#### **Responsibilities for the Programme Manager:**

- Lead the licence application and regulatory compliance processes
- Define a strategic approach for achieving a licensable launch service based on the Orbex Prime vehicle operating at least three European spaceports
- Assist in a development of a Regulatory and Licensing Plan, detailing all required inputs, key activities, milestones etc.
- Produce regulatory and licensing guidelines as well as manuals that proscribe the processes to be followed by involved parties to ensure compliance
- Create licence applications by coordinating with internal and external stakeholder
- Identify interdependencies and interfaces with Spaceport and Range licenses, as well as identifying liability / responsibility gaps and grey areas for resolution
- Meet and liaise with all relevant and necessary stakeholders

#### **Essential requirements:**

- Minimum of a bachelor's degree in engineering.
- In-depth experience of programme management techniques applied to multi-disciplinary, multi-partner environments
- In-depth knowledge of UK, French and Portuguese space launch legislation and regulation formulation processes

APR 2019

PMS2019

- Hands-on experience of coordinating with regulators and licensing authorities at early stages
- Previous aerospace / space industry experience in programme management
- A flexible and dedicated mind-set
- Team player
- English language skills

**Must be:**

- A creative, lateral thinker, able to solve problem pragmatically
- Well versed in a wide range of aerospace safety, regulatory and licensing topics
- Equipped with a flexible and dedicated mind-set

We are looking for experienced candidates who can demonstrate they get things done with a pragmatic attitude and reliable results. In this role we expect a lot of practical, hands-on engagement with suppliers and a wide degree of flexibility and responsibility to achieve a specific outcome. Your track record will be important.

For the right candidates they offer a benefits package that includes the opportunity to earn an equity stake in the company.

You must be a European citizen, from a country that is a signatory to the MTCR convention.

**How to apply**

Please send your CV to [recruitment@orbex.space](mailto:recruitment@orbex.space) noting "PMS2019" in your message title.
